

Jobson Italia srl was set up in 1990.
The following services are rendered 365 days
a year, 24 hours a day:

- **Stocking and trading of spare parts:**
 - Main Engines, auxiliary engines, pumps, compressors, purifiers and separators.
 - European and Asian origin.
- **Reconditioning of two and four stroke engine components:**
 - Cylinder heads, piston crowns, exhaust valves and exhaust valve seats.

The reconditioning process is carried out in our workshop and certified by major Class Registers.

- **Manufacturing and repairs off pressure vessels:**
 - Firetube boilers
 - Watertube boilers

Our workshop procedures in this area are well as our welders are certified by Germanische Lloyd, Lloyd's Register and Norske Veritas.

- **Manufacturing of aluminium stabilizers:**
 - Design, manufacturing and installation.

All our welding procedures as well as checking of hull alignment prior and after installation are all Class certified.

- **Port stay maintenance repairs and riding gangs:**
 - Mechanical, steel work, piping, hydraulic repairs. Ultrasonic cleaning of charge coolers and filters (heated tank dimensions: 3000x2000x1800 mm).
 - Overhauling of generators with riding squads.
- **Grinding in-situ, boring in-situ, laser alignment:**
 - Machining of two stroke and four stroke bearing pockets (main bearings, camshaft bearing pockets) and cylinder liner frames.
 - Grinding in-situ of main journal pins and connecting rod pins.
 - Shaft alignments.
